3 Year Locked Liquidity

Locked liquidity eliminates any possibility of withdrawal; This means your money is safe for trading.

cocker

COCKER

Cocker; It is a project that unites pet needs and the crypto market under a common roof.

- Aiming to unite the petshop world, which has a market of 150 billion dollars in the world, with cryptocurrencies.

Cocker aims to configure the petshop world we are accustomed to on the online platform under the name of Cocker Market.

and to establish an interactive ecosystem circulating between buyer-seller-investor.

- Cocker, which will be launched with a supply of 1,000,000,000, will burn 10% at the start of the project.

The Cocker team will support all transactions with live broadcasts, ensuring project transparency.

- Keeping the project focus on the investor, bringing a 1-year lock to the team wallet and 50-year liquidity lock, and the implementation of the Cocker Market project. Regular burns and regular social responsibility for street animals with some of the market revenues.

Payment with Cocker

WHERE TO USE?

Hello, COCKER family. As you know, we are a project created on an industry with a very large market. As the COCKER Team, we will work to provide payment agreements with COCKER in the places we have listed below. With your support, COCKER will achieve very important successes in the future

- 1) Petshops
- 2) Veterinary Clinics
- 3) Pet Hotels
- 4) Animal Rights Protection Societies
- 5) Pet Hairdressers
- 6) Anywhere that can accept Cocker as a payment system.

In the list given above, it is stated how big an area it can actually serve.

"Together We Will Succeed"

COCKER MARKET

Cocker Market will officially start its service in Turkey in August 2021. Its purpose is to gather the world of petshops in Turkey under a single roof, providing shopping between buters and sellers with low commissions. Cocker Market will not charge store fees for petshops that operate officially and are paying taxes. On the contrary, it will give those stores the opportunity to sell their products easily with low commissions. With this way, Cocker will become a preferred platform in the market. Cocker Market will make regular donations to stray animals with a portion of company revenues, and will provide food support to shelters and treatment support to contracted veterinarians. Cocker Market will support the Cocker Token Project with the majority of company revenue. These will be provided by buying and burning Cocker Token, and by advertising, etc. in the future. Once the Cocker Token reaches price stabilization on the exchange, it will be integrated into the Cocker Market payment systems. Even if the payments of petshopt are done by Cocker, those who can receive payment in \$ (\$ €) can receive payment with Cocker if they wish so.

cocker market

Why Cocker Market ?

YOU SHOULD CHOOSE IT BECAUSE:

Are you not tired of paying thousands of liras of store fee just to open a store in a marketplace? Are you not tired of high commissions and platforms that aim to gain more than you do? Cocker Market works completely officially and does not charge store fees from your valued business partners. By applying the lowest commission rates in the market, Cocker Market directs the shopping between the buyer and the seller in the most appropriate way. Cockermarket.com will be at your service very soon.

Cocker Card

WHAT IS IT?

Cocker Card will be a card that will act as a bridge between Cocket Token and Cocker Market, allowing you to shop with confidence. It can be thought as a kind of wallet. With Cocket Card, you can store your Tokens for shopping and use them for shopping when its usage areas increase (e.g. Contracted Zoos, Veterinary Clinics, Petshops, Pet Hairdressers, and Contracted Pet Hotels). Cocker Card is currently is an idea. Cocket Team aims to provide this service by establishing its own infrastructure with the developing payment systems in the future.

cocker
SORU & CEVAP

How much is the supply?

COCKER has a billion supplies at initiation

On which exchanges will it be listed?

It is completely dependent on the success of the Community and the project. It will be traded on many major exchanges.

Are there advertisements?

The COCKER Team is doing strategic advertising work and very strong advertisements will be made in the future.

What is Cocker Market Project

COCKER MARKET will be the world's largest online marketplace Petshop.

Will there be manuel burn?

COCKER MARKET will make regular burns with some of the company revenues.

Will anyone be able to sell at Cocker Market?

Anyone who pays their taxes officially can open a store and sell.

Where will Cocker Market revenues be used?

Some of the company revenues will be used in social responsibility projects, and some will be used in the burning and promotion of COCKER.

Why is the project only on petshop?

The biggest reason is that it has a huge market and the other reason is that we wanted to do what we love so we can help them. Cocker project will not be limited to petshop only.

Does the Cockermarket have a plan to open up to the world?

Cocker Market will open to the whole world.
